WHITTL

Sr. UI Developer | Jan, 2015 – Current

Build and refine the design of Whittl's web app. Provide a unifying voice for design and development teams. Collaborate closely with designers, stakeholders, and development team to create simple-to-use and engaging product experiences. Use Node.js / Express, React.js and Jade templating with an obsessive focus on performance and usability.

- Constantly improving growing startup's design, feel and UX.

DUO CONSULTING

Sep, 2012 – Dec, 2014

Lead front-end developer on Drupal-based projects, architecting sites, optimizing for performance, and writing maintainable and scalable HTML5/CSS3 and jQuery. Responsive web design sites, including early-stage planning and recommendations.

- Built new social discussion platform for Bloomberg Media, along with several other exciting projects.

LIQUIDPRINT

Sr. Front-end Developer | Jan, 2008 – Sep, 2012

Front-end web development over a variety of different technologies and CMSs across several different industries in a team environment. Resource management and mentoring.

- Evolved from new grad to senior-level management.

EDUCATION

UNIVERSITY OF IOWA

B.A. | Sep, 2003 – May, 2007
